CONGRATULATIONS!

Mr. Fazil
MIT Bengaluru Alumni, 2025

The **Nihon Cup 2026 All India Open Karate Championship**, organized by the NSSKOI, was a significant milestone. Competing **against over 200 elite athletes** in the **Senior Category 60kg while fasting** was a profound test of discipline and rigorous training. This journey was anchored by the realization that forgiveness is the ultimate strength. By unconditionally forgiving himself for his previous mistakes at the KIO Inter-State Tournament, where **he secured 3rd place**, Fazil gained the mental clarity to move forward. This resilience allowed him to excel and secure 3rd place in the Nihon Cup National Level Tournament as well.

The MIT Bengaluru community is incredibly proud of Fazil's achievement and his unwavering discipline. When we asked Fazil to share the spirit of Ramadan that allowed him to progress, he shared these three pillars:

Forgiveness : True strength is the ability to let go completely. It is difficult to forgive yourself or others without conditions, but it is the only way to reset and grow.

Patience : This is active endurance. It is the grit to keep growing and the persistence to stay ready for future opportunities, even during rigorous training.

Charity : Real charity is the love and care we show in daily life, like making a colleague smile or simply being there for a friend.

Along with Fazil, the whole MIT Bengaluru community says Eid Mubarak to everyone, this spirit is for us all.

NIKE

like never before.
